

sgapiPipeMatrixRows(%%questionID %%rows)

Important Update to Custom Scripting

SurveyGizmo's CustomScript Action now supports the LUA programming language. Visit our [NEW Lua Scripting Resources!](#)

Legacy Custom Scripting Language Deprecation Plans

1. New accounts (created after October 29, 2018) will only have the option to use Lua in scripts.
2. As of October 29, 2018 Custom Scripting Actions will default to Lua as the scripting type in the Custom Scripting Action for accounts created before this date. You will be able to switch to the Legacy Custom Scripting; though we highly encourage using Lua.
3. In the long term, Legacy Custom Scripting Actions will be switched to read-only. The exact date on this is to be determined; we will send notifications well ahead of time.

This function pipes the given rows into the given Custom Table question. You can specify a static value or pull selected values from a previous question.

Example

The below example pipes the given rows in the array into the given Custom Table question.

```
%%staticvalue = 'Static Value'; // Static Value
%%radiobutton = sgapiGetValue(10); //Answer from Radio Button
%%rbgrow1 = sgapiGetValue(12); //Answer for Radio Button Grid Row 1
%%rbgrow2 = sgapiGetValue(13); //Answer for Radio Button Grid Row 2

sgapiPipeMatrixRows(6, array(%%staticvalue, %%radiobutton, %%rbgrow1, %%rbgrow2)); //set
alues for row
```
