

sgapiGetSurveyProgress()

Important Update to Custom Scripting

The CustomScript Action now supports the LUA programming language. Visit our [NEW Lua Scripting Resources!](#)

1. New accounts (created after October 29, 2018) will only have the option to use Lua in scripts.
2. As of October 29, 2018 Custom Scripting Actions will default to Lua as the scripting type in the Custom Scripting Action for accounts created before this date. You will be able to switch to the Legacy Custom Scripting; though we highly encourage using Lua.
3. In the long term, Legacy Custom Scripting Actions will be switched to read-only. The exact date on this is to be determined; we will send notifications well ahead of time.

This function returns the percentage progress based on survey pages.

Example

If the above script is placed at the top of each survey page of a 6 page survey (including the Thank You page) the below percentages would be returned:

- **Page 1:** 0
- **Page 2:** 20
- **Page 3:** 40
- **Page 4:** 60
- **Page 5:** 80

[Check it out in an Example Survey](#)

```
%%output .= sgapiGetSurveyProgress();
```
