

sgapiGetSurveyProperty(%%propertyname)

Important Update to Custom Scripting

SurveyGizmo's CustomScript Action now supports the LUA programming language. Visit our [NEW Lua Scripting Resources!](#)

Legacy Custom Scripting Language Deprecation Plans

1. New accounts (created after October 29, 2018) will only have the option to use Lua in scripts.
2. As of October 29, 2018 Custom Scripting Actions will default to Lua as the scripting type in the Custom Scripting Action for accounts created before this date. You will be able to switch to the Legacy Custom Scripting; though we highly encourage using Lua.
3. In the long term, Legacy Custom Scripting Actions will be switched to read-only. The exact date on this is to be determined; we will send notifications well ahead of time.

This function returns the given property for the current survey.

Possible Properties	Return Values
survey_interaction_desktop	INTERACTION_STANDARD
survey_interaction_mobile	INTERACTION_VIRTUAL_PAGE
dNumbering	boolean
account_currency	string (ex. dollar)
replace-icons	boolean
internal_title	string
report-value-method	auto, sequential, custom
clean-html	boolean
language-bar	boolean
save_n_continue	boolean
has_quotas	boolean

Example

The below script gets the internal_title property for the current survey.

```
%%propertyname = 'internal_title';  
sgapiGetSurveyProperty(%%propertyname);
```
