sgapiSetPageProperty(%%pageid,%%propertyn

This function allows you to set a specific property for a page with a given page ID for the active response session.

Possible Properties	Return Values
status_change	normal, partial, complete, disqualified
auto_submit	boolean
is_terminal	boolean
is_admin	boolean
question_shuffle	boolean
xnumber	integer

Example

The below script sets the page property **status_change** as **Complete** for page ID 1.

```
%%pageid = 1;
%%propertyname = 'status_change';
%%value = 'complete';

sgapiSetPageProperty(%%pageid, %%propertyname, %%value);
```
